**Discover the world
with IMS!**

With our new block train from
Basel to Duisburg we connect
not only all major ports but also
the most continental terminals
in Europe, Russia and Asia!

So make your choice
and discover the world
with IMS!

The advantages of Duisburg as a central hub - for your customers!

Deep Sea:

Serving EVERY deep sea terminals in Rotterdam (MVI&II)
Direct connection to the Belgium and German main ports

Short Sea:

Serving utmost all short sea terminals in Rotterdam via RSC

Continental:

Direct connections to all major Containerterminals in Europe, Russia and China

Reduce the Co₂-emissions

Using our high-frequency train systems will help our environment to keep green. For the last mile per truck we use only EURO V or EURO VI trucks.

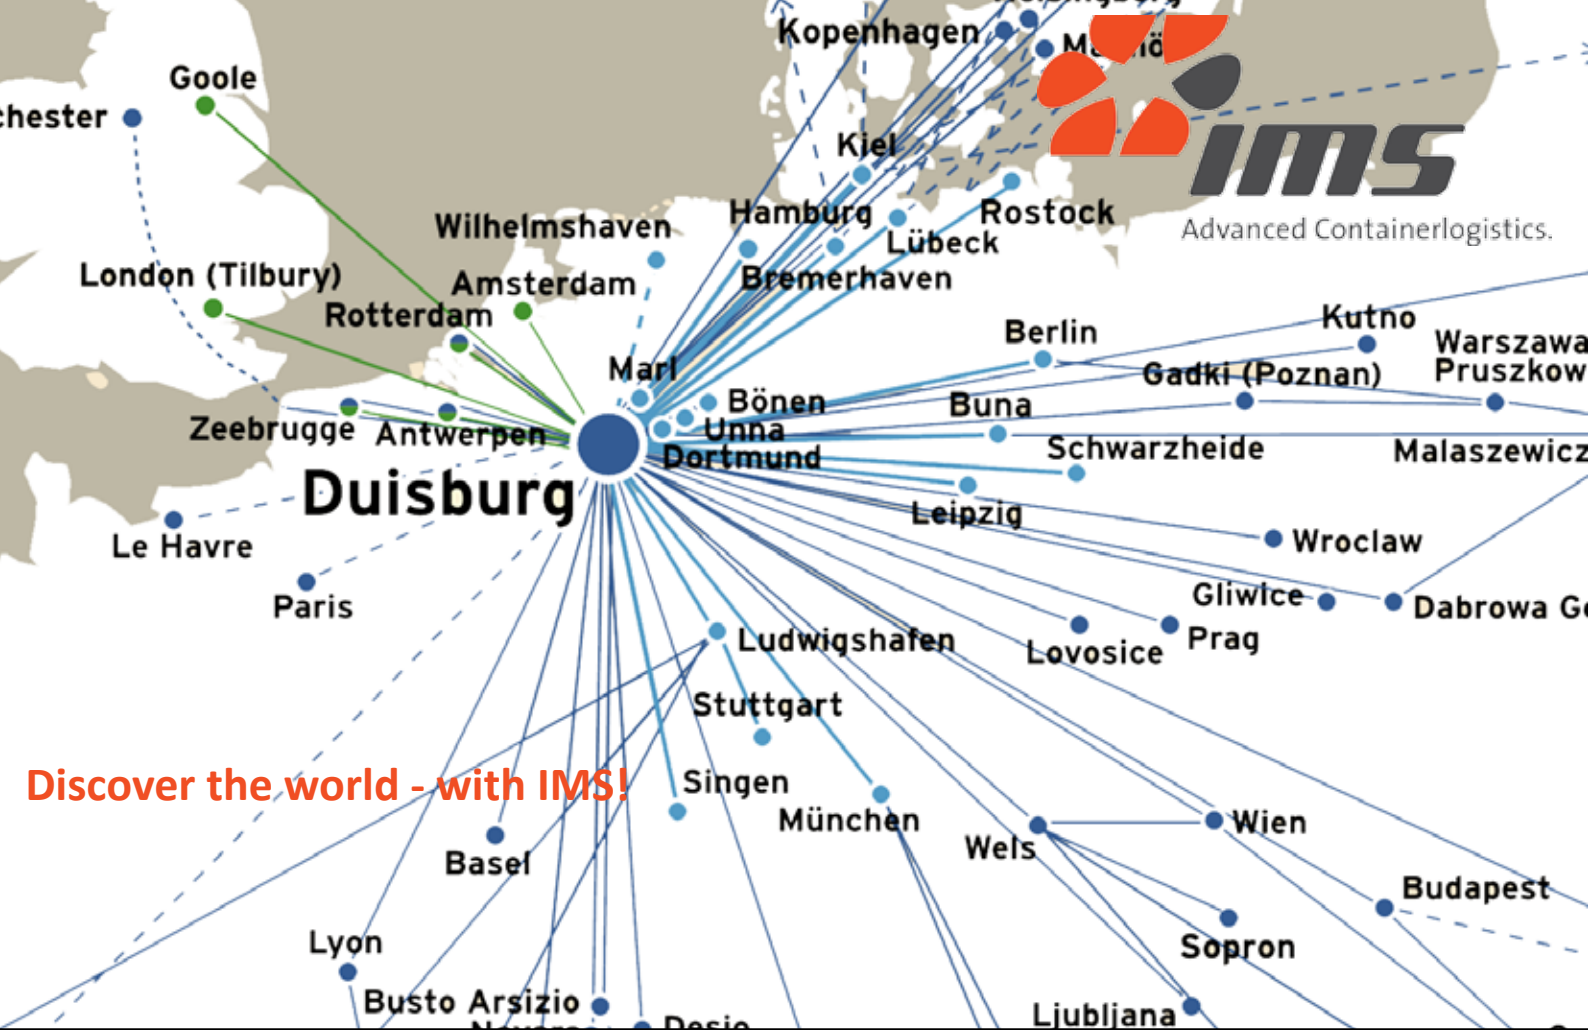

Set the focus on your customer needs

With IMS as your One-Stop-Shop you can deliver optimized Business Solutions to your customers. Save time, money and effort!

One Train, many destinations, 5 times a week

The Block trains will connect the German Containerterminal Weil/Rhein 3 times and the Swiss Containerterminal Frenkendorf 2 times a week with Duisburg Rheinhausen. The transit time is A/B (Departure in the evening, Arrival in the morning) to fit the need of the continental market. The night shift assures a smooth and fast change to all other destinations.
